**THE SKY'S THE LIMIT: NATIONS PHOTO LAB INTRODUCES A NEW
ADHESIVE LIFESIZED PRODUCT**

Owings Mills, MD –(May 28, 2009)- After much anticipation, Nations Photo Lab, an industry leading professional photofinishing lab, is pleased to announce a new addition to their product repertoire, the Wall Grip, which allows a photographer's imagination to blow up to an adhesive life-size possibility. Made with a special no wrinkle or rip premium material, a Wall Grip can be applied with ease to many different surfaces, many times over, and unlike most adhesive objects, does not leave a dirty residue behind when removed. Plus, with sizing from 18" to 60", the limits for the usability of Wall Grips are endless.

Ordering a Wall Grip from Nations Photo Lab is simple. Whether you are a professional or amateur photographer looking to build your product offerings or a consumer looking to spice up a boring room, you need to merely upload your desired image to Nations Photo Lab through their easy to use remote ordering entry software (ROES), which is quickly downloadable at www.nationsphotolab.com. Once the image is received, it is checked by one of NPL's skilled lab technicians, who have the ability to size the image and enhance its features through color optimization. After the image is set to perfection, the custom Wall Grip program, comparable to the best steady hand, takes care of the outlining and cutting.

Whether you plan to use a Nations Photo Lab Wall Grip in a business environment, at home in a child's play room or as a special gift to a loved one, this product is sure to stick around for years to come.
