

HOW TO HANG A

*Gallery
Block™*

INCLUDED IN THIS PACKAGE

X2

X1

TOOLS NEEDED

FOUR EASY STEPS

1.

Place bracket on wall, grooved holes out and slant pointing up. *See above images.*

2.

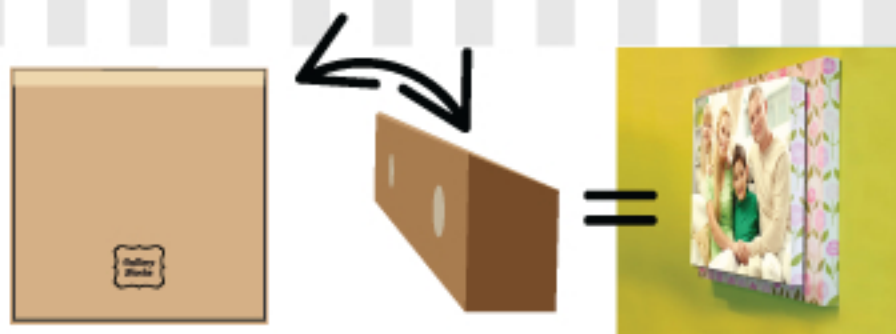

Level the wall bracket – *we suggest using the level underneath the bracket for a straight surface.*

3.

Using your phillips head screwdriver, screw the drywall screws into the wall – *we suggest trying to find a stud for at least one of the screws.*

4.

Place your Gallery Block™ on the wall bracket – it should be flush to the wall with the integrated bracket on the back of the Gallery Block™ sliding over the wall hanging bracket.
